DETAILED ACTION

Reasons for Allowance

Claims 1 and 14 are allowed. The following is an examiner's statement of reasons for allowance: XENPAK (10 Gigabit Ethernet) and XFP (10 Gigabit Small Form Factor Pluggable) are both known in the art as optical communication standards. In fiber optical applications, manufacturers have used small form factor optical modules (XFP) instead of XENPAK modules because of the smaller size and the cost savings with using multiple ports associated with XFP (U.S. Patent 6,866,544 to Casey et al., column 4). Prior art does not teach a conversion board coupled to an XFP board configured to communicate data between the XFP board and a client computing device. It is the examiner's opinion that the prior art of record, taken alone or in combination, fails to disclose or render obvious an XFP board coupled to a conversion board for operation in a XENPAK-sized casing, in combination with the rest of the limitations of the base claim.

Claims 2-8 and 15-20 are allowed by virtue of being dependent upon allowed base claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

Art Unit: 2883

This application is in condition for allowance except for the presence of claims 9-13 drawn to a non-elected invention. Accordingly, claims 9-13 have been cancelled.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and considered during prosecution of the instant application.
